

SCHOOL THEME

KNOWLEDGE GRAPHS AND ARTIFICIAL INTELLIGENCE

WHAT IS ISWS?

A full immersion, super intensive one-week experience including lectures and keynotes from outstanding speakers, a “learning by doing” teamwork program on open research problems, under the guidance of the best scientists in the field, with whom you will co-author a white paper of high potential impact. ISWS means networking and becoming friends with your peers as well as senior scientists, and have lots of fun with them. At ISWS we shape the future generation of semantic web researchers with creativity, methodology, fun and rigour.

June 30th - July 6th 2019
Bertinoro, Italy
